1. Streets, sidewalks, and adjacent property shall be protected throughout the work.

2. Control dust during all construction activity in compliance with the City and County of San Francisco Dust Control Ordinance 160/17.

3. Clearing and grubbing shall remove all vegetation, including weeds. Grubbing shall include removal of all stumps and roots systems of plant materials and replacement with imported top soil as required.

4. Do not willfully proceed with construction as designed when it is obvious that unknown obstructions and/or grade differences exist that may not have been known during design. Such conditions shall be immediately brought to the attention of the Ridge Lane neighbors.

5. All property lines, limits of work, and lot lines shall be verified prior to commencing work.

6. All plant materials are to be approved and accepted by landscape designer at the project site. Prior to plant layout and installation.

7. All planting areas, tree and ground cover areas shall be mulched with a two-inch layer of mulch.

8. Prior to installation, tree and shrub locations are to be verified in the field by landscape designer.

10. All materials, installation, and construction shall comply with the applicable provisions of current laws, codes, safety rules, and regulations of the City and County of San Francisco, the State of California, the Federal Government and any other applicable authorities.

11. Protect all existing improvements, utilities, and plantings unless indicated for removal. Damage to any existing improvements not indicated for removal shall be the contractor's responsibility.

12. The span of the existing fence to be removed will serve as the control point for dimensioning and layout. Preserve fence layout with markers prior to removal.
